The Black Ninja Dog Returns

The San Leon community thought that the elusive, mean-spirited Black Ninja Dog was either dead or moved on as we have not had any attacks in more than two months. In the month of January, he came back with a vengeance causing three wrecks. Two on New Year's night and one on January 12th. All the drivers reported that their wreck occurred due to a black, scuffled, limping dog who jumped out in the road and stood his ground forcing them to leave the road. The leader of this community, Mayor Keith Heinze, is going to hold a special meeting to bring in professional trapper "Skinner Custer Talbert" from Saskatchewan, Canada. We will have a benefit to raise money to pay for this highly sought after Trapper. Skinner said he can be down as soon as the snow melts and he will work under a contract which reads "No kill, no pay." We will keep you posted on this situation.
